Notice of Data Security Incident

Omnicare Medical Group ("Omnicare") is committed to protecting the privacy and security of the information in our care. We engage certain third-party vendors to assist with healthcare management, care coordination, and administrative operations for our medical group. On June 26, 2026, one of those vendors notified us of a cybersecurity incident involving unauthorized access to its computer systems and some of our patients' health information. Upon discovering the incident, the vendor immediately initiated its incident response protocols, took steps to secure its systems and contain the incident, engaged cybersecurity experts to assist with the investigation, and notified law enforcement. Importantly, our systems were not impacted, and patient care was not affected.

The investigation determined that some patients' information may have been accessed by an unauthorized individual. The information varied by individual but may have included one or more of the following: names, Social Security numbers, diagnoses, and billing information, such as dates of service and amounts billed.

Omnicare remains committed to protecting the confidentiality and security of the information in our care, and we sincerely regret any concern this incident may cause. We encourage you to review statements related to your healthcare. If you identify charges for services you did not receive, please contact the healthcare entity or health insurer immediately.

The confidentiality, privacy, and security of your health information are among our highest priorities. Upon receiving notice of the incident, we took steps to confirm that our systems were not affected and to understand the nature and scope of the incident. We understand that the vendor has implemented additional safeguards and technical security measures to further protect and monitor its systems.

We have also established a dedicated, toll-free call center to answer questions about the incident. The call center is available at 888-780-5130, Monday through Friday, from 9:00 a.m. to 9:00 p.m. Pacific Time, excluding holidays.
